DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 24 May 2021 at 01:58 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to be predominantly Low across the UK on Monday. However, localised pockets of Moderate are possible in the far north, mainly in coastal areas.

Tomorrow: Predominantly Low air pollution levels are expected to continue across the UK. Isolated pockets of Moderate pollution still possible in the far north.

Outlook: Generally Low air pollution expected to continue for most regions. However, areas of Moderate pollution may become more widespread in southern England by Friday in light winds and warmer conditions.
